

AALBORG NEEDS INTERNATIONAL LABOUR

That is why we are creating a world-class international school

WHY YOUR COMPANY SHOULD BE INVOLVED

-  Strengthen Aalborg's position as an attractive city for talented international workers and their families.
-  Show that your company is a leader in supporting a global and inclusive society.
-  Help keep Aalborg on the world map by investing in education.

IT IS NOW...

...you have the opportunity to take the lead in establishing a larger international school in Aalborg.

The final decision will be made no later than 1st September this year.

Call or write to us to arrange a meeting where we can explore how your company can benefit from this collaboration.

Let us put Aalborg on the world map together

WHAT YOU GET

Priority Access

Your company's international employees will be at the top of the waiting list for the international classes.

Visibility

Your company will get signs on the new building and publicity in communications about the school expansion.

Networking and Relationships

Invitation to exclusive events and networking meetings with other leading companies.

INVEST IN THE FUTURE OF AALBORG

AALBORG NEEDS INTERNATIONAL LABOUR

That is why we are creating a world-class international school

We know that Aalborg faces a number of recruitment challenges maintaining a skilled international workforce. This has led to a sharp increase in demand for an international school programme.

Skipper Clement is one of Aalborg's leading private schools and the only one offering an international programme. We follow the Cambridge model and have classes from Stage 1 (0th grade) to Stage 11 (10th grade). We have been doing this for many years with great success, but now Aalborg's business community is calling for an expansion with the need for even more places for children from international families. We are ready to take on this task, and we will be welcoming a new Stage 1 class as early as August. However, we have limited space, and in order to expand with a new line, we need to build a new building. These plans are already well underway, but we need your help.

To expand Aalborg International school and meet the business community's demand for more international school places, we need DKK 50 million. We can finance more than half of this ourselves, but to reach our goal, we need the support of the business community.

In order for us to have a building ready for the new students in 2025, the final decision must be made on 1st September this year. That is why now is the perfect opportunity to take the lead in establishing a major international school in Aalborg.

Aalborg is quickly becoming part of the world map, and together we can make this beautiful city an even more attractive place for international families to settle down.

We would love to come and visit you so we can discuss how your company can help ensure Aalborg remains strong and competitive in attracting highly qualified international labour in the future.

Write or call us today and take an active step towards making Aalborg a little more international.
